

B-I-N-G-O Stamps

1. Use paper strips to stamp with your bingo paint markers.
2. Make stamps side-by-side to make combinations of your focus / just right number.
3. Try to make all of the number bond combinations using 2 different colors of markers.
4. Give the strips time to dry.
5. Write the number sentences on each strip.
 - Write an addition sentence ($3 + 6 = 9$)
 - Write a subtraction sentence ($9 - 3 = 6$)

Variation:

Instead of using paper strips, use a 3 part number bond form, showing the whole and the two parts.
